

This is in response to the possible lessening of the Indiana Telephone Privacy Law. I would prefer the law stay as it is. The reason I signed up to be on the list, is that I do not want the annoying phone calls from people that obtain my phone number by unethical means in the first place. Since I have an unlisted phone number, you would think I would receive none, but that is not the case. I would receive between two and three calls a day, and at the most inconvenient times. Also, if I am not home, the messages jam up my voicemail. I do not get the annoying phone calls now, and I don't want to ever again. Please leave the law as it is!
